Many Options to Choose From:

Adjustable beds are no longer just for medical purposes, injury or rehabilitation. Consider these health issues which can be alleviated by the advantages of adjustable beds: acid reflux, arthritis, asthma or other breathing problems, back/neck pain, heart problems, lack of joint mobility, lower back pain, minor aches and pains, neck and shoulder tension, osteoarthritis and swollen legs and feet. From the common cold and muscle pain to more critical needs, your customers can now have a bed that lasts and adjusts with them for a lifetime.

At Lake Court we pride ourselves on having the product you need to service your patients. Beds are an example of our commitment to you in having what you need when you need it. The following pages will reveal to you the vast variety and quantities of beds we have stock of or access to. Remember, also that Lake Court Medical has the accessories that you will need to enhance your patients’ quality of life.
